The First Four-Year College in Alabama

Founded by Bishop Michael Portier, Spring Hill College was the first four-year institution of higher learning in Alabama. During February 1830, Bishop Portier secured a house and property three miles west of Mobile. Six seminaries formed the first Spring Hill student body. The College’s charter was granted by the Alabama State Legislature in 1835.

A Message from **The President**

Dear Alumni,

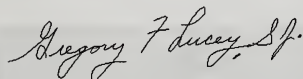

When I came to Spring Hill College in 1997, one of the first things I understood was this community's commitment to the individual. Students are nurtured in body, mind and spirit through time spent in the classroom, the residence halls and in their spiritual lives. There is a deep sense of dedication to mold an individual's ideals to mirror those of our founder, St. Ignatius of Loyola.

Since 1830, the mission of Spring Hill College has remained constant and enduring—to educate students within the context of the Jesuit, Catholic tradition of higher education. This mission has been fulfilled within an ever-changing environment, an environment that has required the College to accommodate change while remaining true to its core values.

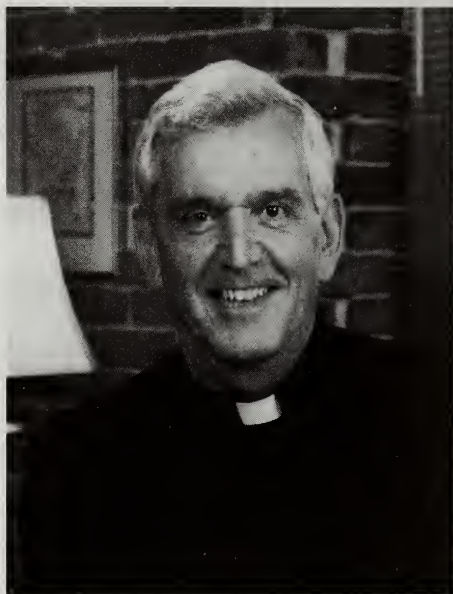

Our wish is that this 2000 edition of the Spring Hill College Alumni Directory will continue to assist you in keeping in touch with your alumni family. I hope you will use it as an essential link to your classmates and to the College.

As your president, I am committed to supporting programs that will meet your individual needs and the needs of the College.

Sincerely,

Gregory F. Lucey, S.J.
President

A Message from

The National Alumni Association President

Dear Fellow Springhillians:

On behalf of the Spring Hill College National Alumni Association, I am pleased to introduce the 2000 Alumni Directory.

We have spent the last year obtaining updated information from our 10,000 Badger alumni which will insure that you continue to receive College publications and mailings in a timely manner. More importantly, the directory will allow you to renew or establish lines of communication with fellow alumni around the world. The listings include degrees and class years, home and business addresses, phone/fax numbers, spouse and children information and, for the first time, e-mail addresses.

This new directory will also bring you up to date with the programs and services offered by your Alumni Association, and we're confident it will be a valuable resource to you as we enter the new millennium. Keep in touch!

Sincerely,

Margaret O. Muir

Spring Hill College National Alumni Association

About The **Spring Hill College National Alumni Association**

With 10,000 members in 17 regions of the United States and overseas, the Spring Hill College National Alumni Association provides Springhillians, past and present, with the opportunity to grow intellectually and socially while supporting the Spring Hill mission.

Local chapters with local leadership are supported by a national board of directors and assisted by a professional, campus-based staff. The purpose of the association is to provide leadership and advocacy for Spring Hill, to enhance student recruitment and alumni support and to inform alumni of College-sponsored programs and activities around the country.

The National Alumni Association sponsors such programs as funding a tuition scholarship for the child of an alumnus, updating the College's alumni database, supporting the men's basketball team in its national tournament play, and sponsoring the Athletic Hall of Fame.

Ignatian Award For Community Service

The National Alumni Association also sponsors an annual award for community service. The Ignatian Award was established in 1992 to recognize those individuals who through their tireless efforts serve their communities in assisting the less fortunate. The award is made through nominations from individual chapters.

The Mission of Spring Hill College

Reflecting the Catholic, Jesuit philosophy of learning, that ultimately faith, reason and justice are inextricably related to one another, the goals for Spring Hill College seek to promote an integrated education of the whole person, while respecting the value of diversity and the fundamental importance of free inquiry. The educational and institutional goals of the College are:

For Its Students

To develop students' intellectual capacities for critical thinking, coherent writing and articulate speaking, by building skills in analysis, synthesis and judgement and by cultivating the quest for understanding and the desire for truth.

To provide a humanistic foundation for a life of continuous learning, through a Core Curriculum which explores artistic, historical, scientific, philosophical and religious approaches to reality.

To develop depth of understanding in an area of specialization which provides a foundation for a productive professional life.

To provide challenge and guidance to the process of moral development and personal integration of values, by deepening a sense of responsibility and respect for the needs and rights of others, along with a mature self-respect and self-confidence.

To promote the growth of social awareness and responsibility, especially through an appreciation and understanding of cultural diversity and the fundamental solidarity of the entire human community, and through cultivation of a reflective sensitivity to human misery and exploitation, which recognizes the continuing need for empowerment of the marginalized in society.

To develop students' capacities and desires for leadership and service, as active participants in the life of church and society.

To awaken and deepen a mature sense of faith, a reflective and personal integration of reason, faith and justice.

To develop a sense of the interrelatedness of reality and the ultimate integration of knowledge, rooted in the mystery of God and revealed in the Incarnation of the Word, Jesus Christ.

For the Institution

To build a true community of learning by focusing all sectors of the College on the common goal of personalized, holistic, student-centered education.

To direct faculty recruitment and faculty development towards promoting quality teaching, active scholarship and shared mission.

To strengthen the distinctive mission of the College by developing and implementing strategies to build shared responsibility for Spring Hill's Jesuit tradition at all levels of the College community.

To engage in systematic planning through a broad-based, ongoing planning and evaluation process in order to facilitate continued growth in institutional effectiveness.

To serve as an educational resource for the Catholic faith community of the Southeast.

To serve as an educational and cultural resource for the Mobile community and the metropolitan area.
